

Mezzalift

Safe and Easy Lifting

for a more Profitable,
Safer Workplace

Mezzanine Floors

Height Adjustable

Simple Installation

Australian Made

StockMaster Mezzalift is a cost effective solution for vertical transport of goods to mezzanine floors

Using a simple winding mechanism, items weighing up to 60 kg are easily moved by a single operator.

Featuring a reliable manually operated winch, braking of the load is automatic when the winch handle is released. Maintenance costs are minimal, and there is no down time for charging of batteries.

The dangerous practice of carrying items up or down the ladder is eliminated and the lift table can be positioned to allow a constant working height for positioning of stacked loads.

The overall length is adjustable to ensure correct operating height at the upper floor level and place the lift table at waist height for easy loading and unloading.

Mezzalift is fast and simple to install with fixing required a just two locations and is provided with a high visibility ground level safety rail system to eliminate the possibility of standing under the lift table.

Mezzalift is the ideal companion to Stockmaster Mezzalad providing for personell access and goods transport to mezzanine floors and storage areas above factory offices and tea Rooms etc.

StockMaster Mezzalift manual goods lift ...
